## INTRODUCTION

This Report highlights the activities of the Transportation Professional Services Selection Board (TPSSB) during Fiscal Year 2008 in conjunction with the selection of consultants for Architectural/Engineering (A/E) projects processed through the TPSSB, for the Maryland Department of Transportation (Department), in conformance with applicable laws, regulations and internal guidelines.

The contents of this report have been organized under the following topical headings:

- Executive Summary
- Minority Business Participation
- Changes in Laws, Regulations, and Internal Guidelines
- TPSSB Membership and Composition
- Consultant Selections
- Certification for Consultant Services

Appropriate attachments have also been provided detailing Department Consultant Screening Committees and Negotiating Teams membership; consultant selections, including project & proposal data/time involved; projects certified by the Secretary of Transportation (Secretary) for consultant services for FY'08 and revisions to three (3) previously certified projects for FY'08, six (6) projects for FY'07, four (4) projects for FY'06, two (2) projects for FY'05, and two (2) projects for FY'04.

## EXECUTIVE SUMMARY

The major facts and conclusions contained in this report are as follows:

1. The TPSSB finalized 87 consultant selections. The total fees for these 87 selections amounted to approximately \$187 Million.
2. Of the total 87 selections, all were in excess of \$500,000.00 and were based upon evaluation of technical proposals and negotiated prices.
3. The total time required to finalize selections on a negotiated basis averaged 17.5 months per selection, with 16.9 months consumed by Transportation Agencies and .6 months by the TPSSB. (These averages exclude major delays attributable to non-selection related matters.) This is an decrease over Fiscal Year 2007 of 1.15 months per selection in time consumed by Transportation Agencies and a decrease of 0.05 of a month for the time required by the TPSSB.

## MINORITY BUSINESS PARTICIPATION

Of the forty-eight (48) firms recommended for award of a contract on eight-seven (87) projects in FY'08, Five (5) were minority firms. One Hundred and Seven (107) minority firms were utilized as subcontractors on these projects.

## CHANGES IN LAWS, REGULATIONS, & INTERNAL GUIDELINES

In Fiscal Year 2008, there were no changes in the State Law, the State Procurement Regulations (Regulations). Changes were made to the MDOT Architectural & Engineering Consultant Selection Internal Guidelines (Guidelines).

1. State Highway Administration's (SHA) request to update the Guidelines are as follows:
  - (a) Split Rates - Consultant firms will no longer be reimbursed using a combined and/or blended PB&OH rate. Rates for office and/or field activities shall be applied separately, if applicable.
  - (b) Fixed Overhead Rates - a firm's PB&OH rate, whether field or office shall be fixed for the life of the initial contract. SHA will not accept a provisional rate. An adjustment to PB&OH may be negotiated if and when a contract is extended.
  - (c) For A/E contract estimating and negotiating purposes, SHA will use the average PB&OH rate for office and field activities, from the top 20 firms awarded an SHA contract in a specific Fiscal Year. The rates will be adjusted accordingly on a fiscal year basis.
  - (d) Fixed Fee - the fixed fee percentage shall be 21%, and shall be applied only to direct labor and escalation.
  - (e) Salary Cap - reimbursement for actual salary for any individual, including Principals, shall not exceed \$80/hr. The maximum annual compensation per individual shall not exceed \$166,400.
  - (f) Consultant Staff assigned to SHA facilities - SHA will require the field rate for a "consultant classification" that is assigned to an SHA facility for more than 90 consecutive days.

2. Maryland Transit Administration's (MTA) request to update the Guidelines to address the specific changes regarding MTA's engineering, design and inspection A/E contract as stated below:
- (a) Split Rates – Consultant firms will no longer be reimbursed using a combined and/or blended Price Burden and Overhead Rate (PB&OH). Rates for office and/or field activities shall be applied separately, if applicable.
  - (b) The overhead rate for MTA engineering, design and inspection A/E contracts will be established at the rate identified in the Consultant's accepted independent audited overhead report that is prepared in accordance with FAR 48 CFR 1, Part 31 and applicable Maryland Department of Transportation Guidelines. The MTA will use a provisional overhead rate until such times as an actual overhead rate can be established based on an acceptable audit.
  - (c) For A/E contract estimating and negotiating purposes, MTA will use the average PB&OH rate for office and field activities, from the top 10 firms awarded an MTA contract in a specific Fiscal Year.
  - (d) Fixed Fee – the fixed fee percentage shall be 21 percent and shall be applied only to direct labor and escalation.
  - (e) Salary Cap – the reimbursement for actual salary for an individual, including Principals, shall not exceed \$80/hour. The maximum annual compensation per individual shall not exceed \$166,400.
  - (f) Consultant Staff assigned to MTA facilities – MTA will require the field rate for a “consultant classification” that is assigned to an MTA facility for more than 90 consecutive days.

TPSSB MEMBERSHIP AND COMPOSITION

During Fiscal Year 2008, the membership and composition of the TPSSB was as follows:

Permanent Members:

- Robert Sheehan, Chairman (Public Member) - thru 5/08
- Benjamin E. Beavins, Jr., Vice-Chairman (Public Member) - effective 6/08
- John D. Porcari, Secretary
- Carmina Perez-Fowler, (Office of the Assistant Secretary), Secretary's Designee – effective 8/07
- Brian J. McAllister, (Office of the Assistant Secretary), Governor's Designee
- John M. Contestabile, (Office of Engineering & Emergency Services), Alternate Secretary's Designee

Temporary Members:

The following Temporary Members represented their respective Transportation Agencies at various meetings:

State Highway Administration (SHA):	Robert Gay (Designee) Alan Gertner (Alternate Designee)
Maryland Aviation Administration (MAA):	Suzette Moore (Designee) Carol Stock (Designee)
Maryland Transit Administration (MTA):	Stephen V. Silva (Designee) Priscilla Jeffers (Designee) Vernon Hartsock (Alternate Designee)
Maryland Transportation Authority (MdTA):	Benjamin Mondell (Alternate Designee)

Executive Secretary:

Trisha O'Neal

Assistance was rendered to the TPSSB through the following:

Office of General Counsel: (Secretary's Office)

Thomas G. Peter, Deputy General Counsel

Office of Consultant Services: (SHA)

Robert Gay, Chief & Staff

Various Consultant Screening Committees and Negotiating Teams of Transportation Agencies:

A list of membership to these Committees/Teams as of June 30, 2007, is provided as Attachment I.

## CONSULTANT SELECTIONS

During Fiscal Year 2008, the TPSSB met 12 times, and processed 87 selections on a negotiated basis involving 48 consultant firms. The total cost of the 87 finalized selections amounted to approximately \$187 Million.

Detailed information on the 87 finalized selections is provided as Attachments II - V. An analysis of the data on these Attachments, and other information available in TPSSB files, reveals the following:

1. Projects by Cost Categories:

Costs for each of the 87 selections for which consultants were selected on a negotiated basis ranged from approximately \$500,000.00 to \$16,300,000.00.

The following tabulation summarizes these selections by cost categories:

Cost Category \$	No. of Selections	% by No. of Selections	% by Cost of Selections
200,001 - 300,000	0	0%	0%
300,001 - 500,000	1	1.1%	35%
500,001 - 1,000,000	12	13.8%	40.2%
1,000,001 and over	74	85.1%	56.3%
Total	87	100.0%	100.0%

2. Selections by Technical Proposals/Negotiated Prices:

Eight-seven (87) selections were finalized based on evaluation of technical proposals and negotiated prices.

Negotiating Teams were able to negotiate a satisfactory contract with the top-ranked firms in all instances at a price, which they determined to be fair, competitive and reasonable.

There is a possibility that the TPSSB could consider a Transportation Agency's recommendation of the award of a contract to the second highest ranked firm. In addition, in cases where simultaneous negotiations with two or more firms for the awarding of identical open-end contracts from one reduced candidate list have not been satisfactory, the Transportation Agency may negotiate with, and recommend the award of a contract to, a lower ranked firm. Neither of these situations occurred in FY'08.

3. Time Involved in Finalizing Selections:

Of the eight-seven (87) selections which were finalized on a negotiated basis, the total time required for a selection ranged from 7.4 to 36.6 months, depending on the nature and complexity of the project, averaging 17.5 months per selection, excluding major delays attributable to non-selection related matters. This was measured from solicitation of interest from firms, to final approval by the TPSSB. Related actions occurring during this period were as follows:

An average of 16.9 months per selection was consumed by appropriate Transportation Agencies in making specific selection recommendations to the TPSSB. This covered time necessary for public announcements for solicitation of interest from firms, evaluation of candidate firms, any de-briefings of firms not on reduced candidate lists, preparation of requests for technical and price proposals, and evaluation of these proposals and price negotiations in order to make selection recommendations to the TPSSB.

An average of .6 months per selection was required for the TPSSB to review and finalize all selection recommendations made by Transportation Agencies, including waiting periods necessary for public announcements for TPSSB meetings, and any de-briefings through Transportation Agencies of firms not recommended for selection.

4. Inquiries and Briefs by Dissatisfied Consultants:

A total of 250 Expressions of Interest were received relating to the 87 finalized selections. A total of 111 inquiries were received from dissatisfied firms. 36 inquiries were due to non-placement on Reduced Candidate Lists, and 77 were due to non-recommendation for final selections. These inquiries were handled through appropriate Consultant Screening Committees. There were no briefs pre-filed with the TPSSB.

### CERTIFICATION FOR CONSULTANT SERVICES

During Fiscal Year 2008, the TPSSB received and recorded a total of twenty-nine (29) certifications by the Secretary involving A/E services, which at the time of certification could not feasibly or economically be provided through existing in-house resources, and appropriate Transportation Agencies were directed to proceed with the selection of consultants.

Detailed listings of such projects recorded by the TPSSB as certified by the Secretary are provided as Attachment VI.

REVISION TO PREVIOUSLY CERTIFIED PROJECTS – FY'08, FY' 07, FY'06, FY'05 and FY'04:

Revisions were recorded by the Board to the following projects previously certified by the Secretary of Transportation:

- FY'08 – (#19) Changing the title to Construction Contract Claim Review and Analysis Services, District 4 (from Statewide).
- FY'08 – (#12) Increasing the estimated cost from \$1,000,000 each to \$5,000,000 total.
- FY'08 – (#23) Decreasing total number of contracts from eight (8) to six (6).
- FY'07 – (#35) Increasing the estimated cost from \$9,000,000 each to \$15,000,000 total.
- FY'07 – (#32) Increasing the estimated cost from \$3,000,000 each to \$5,000,000 each.
- FY'07 – (#31) Increasing the estimated cost from \$3,000,000 each to \$5,000,000 each.
- FY'07 – (#28) Increasing the estimated cost from \$1,000,000 each to \$1,500,000 each.
- FY'07 – (#27) Increasing the estimated cost from \$750,000 each to \$1,000,000 each.
- FY'07 – (#1) Increasing the estimated cost from \$1,000,000 each to \$1,500,000 each.
- FY'06 – (#37) Increasing the estimated cost from \$16,000,000 total to \$26,000,000 total.
- FY'06 – (#35) Increasing the estimated cost from \$12,500,000 each to \$16,500,000 each.
- FY'06 – (#32) Increasing the estimated cost from \$5,000,000 each to \$10,000,000 each.
- FY'06 – (#24) Increasing the estimated cost from \$1,000,000 each to \$1,500,000 each.
- FY'05 – (#25) Increasing the estimated cost from \$5,000,000 each to \$10,000,000 each & increasing the total number of contracts from five (5) to six (6).
- FY'05 – (#12) Increasing the estimated cost from \$4,000,000 each to \$6,000,000 each.
- FY'04 – (#48) Cancellation of Project.
- FY'04 – (#37) Increasing the estimated cost from \$10,000,000 total to \$15,000,000 total.

These revisions are provided as ATTACHMENT VII.

PROJECTS WITHDRAWN FROM FURTHER CONSIDERATION

During Fiscal Year 2008, one (1) project, which was previously recorded by the TPSSB as certified by the Secretary of Transportation, were withdrawn from further consideration.

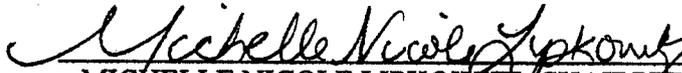

This withdrawn project is provided as ATTACHMENT VIII.

WAIVER OF COMPETITIVE SELECTION PROCESS

During Fiscal Year 2008, the Board approved one (1) request for a waiver of the competitive selection process.

This waiver is provided as ATTACHMENT IX.

Report of Activities for Fiscal Year 2008 submitted and approved at the TPSSB meeting held on September 4, 2008.

  
MICHELLE NICOLE LIPKOWITZ, CHAIRPERSON

FISCAL YEAR 2008**

ITEM	AGENCY	PROJECT DESCRIPTION (PROJECT NO.)	SCOPE OF SERVICES SOUGHT	JUSTIFICATION FOR SERVICES	ESTIMATED COST (\$000)	CTP YEAR	DATE CRTD BY SECRETARY	DATE RCRD BY TPSSB	DATE APPROVED BY TPSSB
1	MdTA	Comprehensive Architectural, Structural, Mechanical and Electrical Design Services (four contracts)	Preliminary and final engineering design in the fields of architecture, structural, mechanical and electrical engineering.	MdTA does not have the in-house resources necessary to perform the services provide by this contract.	\$16,000 Total	FY08	5/9/07	7/5/07	
2	SHA	Traffic Engineering Services for District 4 (two contracts)	Perform traffic engineering studies, corridor analysis, prepare minor functional and geometric design, review for improvement identified high accident locations.	Limited in-house capabilities under workload and future commitments.	\$ 750 each	FY08	6/7/07	7/5/07	
3	SHA	Engineering Design and Support Services for Aerial and Underground Utility Relocations, Statewide (two contracts)	Engineering services to support the Design Technical Services Division including utility engineering design, plan, specification and estimate development for public utility relocations.	Current workload of in-house staff justifies the need to utilize consultant to provide support and augment in-house utility expertise and capabilities.	\$3,000 each	FY08	6/7/07	7/5/07	
4	SHA	Landscape Construction Inspection Services, Statewide (two contracts)	Inspection of all phases of landscape construction and maintenance on various projects being constructed and maintained statewide.	OED does not have sufficient capabilities to provide inspection services.	\$3,000 each	FY08	6/7/07	7/5/07

TRANSPORTATION PROFESSIONAL

SERVICES SELECTION BOARD (TPSSB)

WAIVER OF COMPETITIVE SELECTION PROCESS

Pursuant to the State Finance & Procurement Article, Section 13-314(a)(1)(ii), Annotated Code of Maryland, and the requirements of the State Procurement Regulations (COMAR 21.12.02.14.A(5)), notice is hereby given that at its meeting on November 1, 2007, the Transportation Professional Services Selection Board waived the requirements of the competitive selection process for the following project:

Maryland Department of Transportation - The Secretary's Office

Baltimore Rail Tunnel Study, tasks and sub-tasks to assist the Federal Railroad Administration (FRA) in developing improved train routes, enhanced operations, improved clearances and increased capacities for both freight and passengers through the Baltimore Region.

Parsons Transportation Group (PTG) was awarded a contract to investigate the aging railroad tunnels in the Baltimore area by the Federal Railroad Administration (FRA) in 2005. They are currently under contract to the FRA to provide all essential Architectural/Engineering Services to prepare a report identifying and assessing the various railroad route problems and potential solutions in and around Baltimore.

MDOT desires to participate in the continuation of this work and to have PTG continue to build on the areas identified in their 2005 effort. However, FRA has no mechanism to receive payments from a State or local government source, to help fund their contract. MDOT has requested that the TPSSB waive their competitive selection process and allow MDOT to enter into a Sole Source contract with PTG for their 20% match requirement. These matching funds will be taken from a specific allocation within Maryland's portion of the railroad funds identified in the Safe, Accountable, Flexible, Efficient, Transportation Equity Act (SAFETEA), currently scheduled to be \$3 million.

The Board determined that this request did meet the requirements of COMAR 21.12.02.14A(5) as a project of a complex nature, carried out in phases, making it not feasible to continue subsequent phases with other than the first phase source. The Board approved the request for a waiver of the competitive selection process and approved the selection of Parsons Transportation Group to continue work on the Baltimore Railroad Study for an amount not to exceed 20% of the SAFETEA allocation for this work.
